

05 DEC 2013

THE OPEN UNIVERSITY OF SRI LANKA

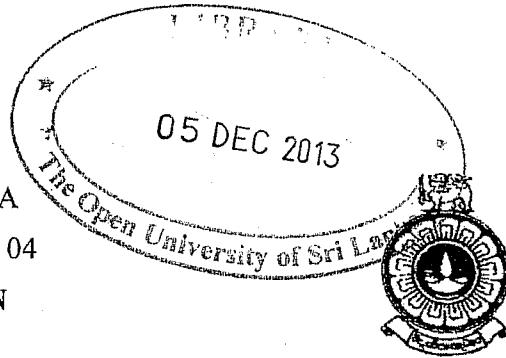

B. Sc. DEGREE PROGRAMME – LEVEL 04

BOU2101 – GENETICS & EVOLUTION

CAT 1 (NO BOOK TEST) 2012/13

DATE: 16th February 2013

Time: 4.00 – 5.00 p.m.

REGISTRATION NUMBER:

Answer all questions.

This paper consists of two parts, Part A and Part B.

Part A - Q1 contains twenty (20) multiple choice questions. Tick the correct answers for these questions with a cross (x) against the question number in the answer sheet given below.

Part B has two questions and Q 3, Q 2. Answers for these structured essay questions should be written in the space provided in the question paper itself.

Submit the entire question paper.

Answer Sheet for Part A – Q 1

Q 2

PART 2

(2.1) What are the agents that change the allele frequencies of a population?

.....
.....
.....
.....

(2.2.) State the Hardy-Weinberg principle?

.....
.....
.....
.....
.....
.....
.....

(2.3) Describe the process of directional selection using a diagram.

.....
.....
.....
.....
.....

(2.5) List the post-mating reproductive isolating mechanisms.

.....
.....
.....
.....
.....

(2.6) What is meant by kin selection?

.....
.....
.....
.....
.....
.....
.....

(2.7) What is the commonest way by which sympatric speciation can occur?

.....

Q 3

(3.1) Name the two hypotheses that have been presented to explain the origin of eukaryotic cells during the Proterozoic era.

- i.....
- ii.....

(3.2) Name three living fossils.

- i.....
- ii.....
- iii.....

(3.3) Fill in the table given below to compare the Protostomes with the Deuterostomes.

	Protostomes	Deuterostomes
Cleavage of eggs		
Formation of mouth		
Formation of coelom		
Laval form		

(3.4) State three reptile-like characters that can be seen in *Archaeopteryx*.

- i.....
- ii.....
- iii.....
